

April 20th – 26th, 2025

Complimentary Consultations through the month of May!

Prosthodontics The Dental Specialty of Tooth Replacement

What can a Prosthodontist do to help me?

Did you know that over 120 million Americans are missing one or more teeth affecting their personal appearance and oral function. Adults that are missing teeth or have failing teeth often suffer from poor self esteem, declining oral health and negative overall health. A Prosthodontist is the dental specialist who is focused on the restoration or replacement of missing and damaged teeth.

A Prosthodontist goes through three or more years of advanced training beyond dental school. Here at EMA we have three Prosthodontists, ready to serve.

EMA Prosthodontics are the only Prosthodontists in Western Mass.

Dr. Vincent Mariano, Dr. Alissa Mariano and Dr. Karolina Migus will be accepting complimentary consultations in celebration of ***National Prosthodontics Week!*** Through the month of May.

Time is limited, schedule your complimentary consultation today. 413-731-8800.

Severe tooth wear, tooth replacement options, crowns, bridgework, dental implants, mini-implants, removable full or partial dentures, implant retained prosthesis
